

Glover Select Board
21 May 2008

Called to Order at 6:30pm

Board Members Attending: Nash Basom, Jason Choquette

Also Attending: Andy Brosseau

Minutes of 7 May 2008

Approved without changes.

Roads

Sweeping the sand from the blacktop roads is finished. Grading “berms” back into the roads is done. Three-inch minus gravel which was spread during mud season has been covered with finer gravel. The summer rebuilding program should be underway sometime next week. Spreading chloride should begin in early June. The four miles of roads rebuilt last summer came through the winter in excellent shape and may not even require grading this year.

Ancient Roads Grant

Following the publication of our notice in the 14 May Chronicle, we agree to hire Nick Ecker-Racz to complete the research required to complete this project and to compensate him for work he has already done in this regard. We also agree that he may invite others to work with him on this project as he deems appropriate.

Hazardous Waste Cleanup

Additional contaminated material has been removed from the ambulance bay site and temporarily stockpiled at our gravel pit. We expect this material to be removed from the gravel pit within the next few days.

Miscellaneous

Other routine clerical and administrative matters were attended to.

Adjourned at 8:34pm.
