

Glover Energy Committee Meeting 10/23/23

Attending- Mariel, Ann, Sara, Dave, Jack, Angela

Bikes- Almost done for the season, will start again in April/May next year, depending on weather. David will check the batteries periodically throughout the winter to charge if necessary and then have them tuned up in the Spring before we start up again.

MERP, town buildings, Energy Audit- Seemed to go well, now we wait for the report.

Window Dressers- Our workshop went well, glad we didn't have more than we did since we had to be in the fire station due to flood remediation at the Town Hall.

Next endeavor ideas?

-Car charging stations- Planning commission is working on this as part of the Downtown work, maybe we should reach out to them; specifically Jim Bowes to see if we can help in some way

Next Meeting- Monday 11/6/23
