

Glover Energy Committee Meeting 11/20/23

Attending- Mariel, Ann, David, Angela

MERP- Paul from the audit company requested follow up info, don't expect to get feedback until beginning of 2024. The \$4000 mini grants are still available for community involvement, Allie Webster with NVDA strongly encourages all energy committees to apply for it.

Window Dressers- Jack confirmed that we will work with Greensboro next year as a team, presumably at the Glover Town Hall because of the space. Ann participated in Hyde Park and Lyndonville builds and Mariel and David participated in Lyndonville. Said those builds went well too.

Vermont Climate Progress- Mariel listened to a zoom meeting that VECAN put on. Take away was that we are behind in our goals of energy efficiency state wide and there will be more meetings over the coming months to get more info and come up with plans.

Ann went to meeting Saturday with Emma Harter from 350VT to discuss goals and objectives and concerns with upcoming projects.

Mariel attended the NVDA meeting last Thursday for local energy committees, lots of people attended. They requested energy committees complete an online survey for the NEK Energy Plan, due by mid December. Allie also asked for photo contributions of the NEK.

Angela to check and see how the solar array is producing and if it covers the Town's electric use.

Mariel to check with Jim Bowes re charging stations and see if we can help in some way.

Next Meeting December 4th @ 4pm.
