

Glover Energy Committee Meeting 12/16/24

Attending: Ann, Sara, Mariel, Angela

Guest: Theresa

Town Report- worked on the Town Report

MERP-

Discussed the fact that we may have included the solar panels/battery backup for the Fire Department twice in our request. Carter said she doesn't feel we need to call it out, as long as we only use the money for projects approved in our scope of work.

Talked about Efficiency Vermont and if we should reach out to them for help, Carter will send Theresa an email with the contact info we need to start with who can help with MERP.

Notice has been put in the paper for RFP's, no responses yet.

Next Meeting- January 6th 4pm
