

Glover Energy Committee Meeting December 18th

Attending- Sara, Ann, Mariel, Angela

Received an invitation from Greensboro Energy Committee to participate in a multi town collaboration for weatherization/efficiency outreach. Mariel will email that we are interested and they will have a meeting in the beginning of January to go over details.

Ann and Mariel listened in to parts of the VECAN conference. Sounds like a fair amount of funding is coming for multiple different uses ie- low income solar, weatherization, electric appliances.

No new info on MERP

Next Meeting January 15th
