

EARTH DAY VOLUNTEER EVENT

Willow Staking for Streambank Restoration

Join the Orleans County Natural Resources Conservation District for a hands-on Earth Day weekend workshop experience installing live willow stakes along a tributary of the Barton River.

20.5% of Lake Memphremagog phosphorus comes from stream bank erosion. **Plantings projects help prevent erosion, filter runoff, and reduce pollution flowing to lake Memphremagog.**

NO EXPERIENCE NEEDED

- Learn how to install live willow stakes
- Hands-on environmental restoration
- Make a real impact in your community

PERKS

- Coffee & Snacks Provided
- Lunch Included

RSVP

SUNDAY | APRIL 19TH

GLOVER SCHOOL 100 SCHOOL ST, GLOVER, VT

In partnership with the Town of Glover, Glover Fire Department, and Glover Community School and support from Great Lakes Fisheries Commission & Vermont Fish & Wildlife Department.
