

## Glover Energy Committee Meeting 3/16/26

Attending: Mariel, Ann, Sara, Angela

Guests: James & Nella

MERP- Waiting on the contract to be signed by the town, needs to be reviewed by the town's lawyer. Will ask the selectboard to prioritize getting it signed so that work can get started. The sooner we can get the work done there may be additional funding that we can get. Nella and James will reach out to Spates about meeting on April 6th for a kickoff meeting. Will also invite Theresa and Cindy to the meeting if they are able to attend.

Selectboard- at the last Selectboard meeting it was requested that all committees review their organizational structure. If we don't receive something describing what they would like we will send them an email asking and go from there.

VEEP- The Barton School has scheduled a presentation for the end of the month

Ebikes- Will resume in April when Sara is back.

Town Meeting- Mariel, Ann, Angela tabled for the energy committee. Did a raffle for a free window insert and Andrea Neil won it.

Enhanced Energy Plan- Committee will review Allie from NVDA's comments before our next meeting and discuss then.

Next Meeting- April 6th
