

Glover Energy Committee 6/18/24

Attending: Mariel, Angela, David

David has been working on an info sheet to go along with the heat sensor, the thermometer is at the Library, we need to come up with a "how to" for that and an advertisement for Toni to post at the Library and maybe share on Facebook.

Mariel will be attending the NEK Saves meeting this week and will report back if any update on MERP.

Glover Day planning is well underway, we will have a table and man it from around 8 to 1. Angela will loan us her pop up tent, and we can borrow a table from the Town. We will finalize the raffle baskets at our next meeting.

Next meeting Tuesday 7/2 @ 4 at the Library.
