

Glover Energy Committee Meeting, June 2nd, 2025

Attending- Mariel, Ann, Sara, Angela

Guests- James & Nella Coe

MERP Update - Waiting on designs from their engineers. James and Nella need to walk through the buildings again to make sure they attend to all the necessary details involved in scope of work. Hoping to have more info for our first meeting in July, and then we can start making decisions.

VEEP - Glover School K-3 had VEEP come in and do a presentation and they were very happy with it per feedback from teacher Monique Schneider.

E Bikes - advertised in FPP, no responses yet, presumably because of the poor weather, Glover Library will post on facebook

Window Dressers - Time to start measuring! Mariel will work to organize this.

Next meeting: June 16th at 4pm, at Glover Library

Submitted by Angela Daniels, Committee Secretary
