

Glover Energy Committee Meeting 6/6/22

Attendees- Ann, Angela, Mariel, Sara

Ann & Sara did some home visits to talk to people about efficiency programs. No takers for Window Dressers at this point but will keep doing some throughout the summer. Also discussed NETO and Heat Squad.

Mariel & Ann intend to visit some people next weekend.

Selectboard meeting is this Thursday where they will review the West Glover Solar Array agreement with Norwich Solar.

Glover Farmers Market begins Sunday 6/12. Sara will have efficiency materials at her table there.

Angela met with Aaron @ NETO to discuss WindowDressers, gave him some handouts. He would like to see us or the program expand north to cover more of the NEK. Maybe we could group them together to measure multiple homes in one day or if we can recruit another measurer.

Next Meeting Monday 6/20/22 4pm @ Glover Town Hall downstairs
