

Glover Energy Committee Meeting 1/2/23

Attending- Jack Sumberg, Sara Gluckman, Ann Creavan, Mariel Hess, Angela Daniels, Dave Olsen

WindowDressers- Local Coordinators Meeting to set goals for the coming year. Would like to get Barton or Orleans Village to cohost or potentially skip a year. Will try to reach out to see if any people we know would be interested or if they know of anyone.

E-Bikes- Waiting for better weather to actually look at the used ones that we are interested in. Sara is going to reach out to grant funders to see if there are more funds available because the \$4000 we have will only buy the bikes and we won't have any left for maintenance and upkeep.

The waiver has been approved by the Glover Town Lawyer. Need to run it by the Select Board again with the changes the lawyer requested.

Will have a checklist for people to go over to make sure everything is functioning before and after they use the bike. Will also need to have someone check them before they go out again. Not sure who is qualified or who is willing but something to figure out.

W Glover Solar Array- Requested that Norwich put up a sign or fence of some sort around the array to keep people out. If they don't we will ask the Town to put something up as it is town property,

Next Meeting- Monday January 16th @ 4 at the Town Hall

Respectfully submitted,  
Angela Daniels
