

GLOVER VILLAGE GREEN

A gathering place for Glover — past, present, and future.

THE VILLAGE GREEN THEN

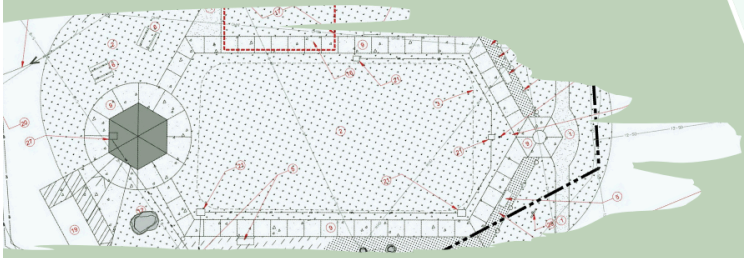

For generations, the Glover Village Green has served as a gathering place in the village.

THE GREEN TODAY

Today, the Green continues to host community activities such as the Glover Farmers Market and Glover Day.

During the Heart of Glover planning process, the site was identified as a valuable but underutilized community space in the village center.

NEXT STEPS

Modest improvements to support **community use**:

- Landscaping, pathways, and seating
- Electrical access for events
- Space for winter skating

- APRIL 2022
