

Glover Planning Commission September 25, 2022

ARPA proposal committee

The Committee met at 3:43 pm via zoom to finalize our proposal to the Glover Selectboard for the use of ARPA funds.

Randy, Carmela, Steve and Liz were present Randy explained that he, Steve and Liz worked on the budget and Nella and James Coe had sent back to us updated information and figures for the calculations. They had gotten some specific figures from Jason Sicard as to actual expenses.

We discussed all this information and are submitting a request for \$140,275 with an added 20% contingency for a total \$168,330.

Nick sent an email to Randy observing that we consider having local people accomplish some of the parts of the project; perhaps there would be some donations of labor and materials.

We have five years to complete the ARPA grant. There is unlimited time to complete the other parts of the projects as we haven't the funding for them yet.

We discussed the other part of the Heart of Glover Plan; the RT 16 corridor. Perhaps the (ARPA funded) grant writer can help with this second stage of implementing the plan as well. Also, VTrans has been contacted but as of yet we have had no reply about or proposed traffic/parking /crosswalk requests.

The ARPA request to the Selectboard will be attached to these minutes.

Respectfully submitted,

Liz Nelson, Secretary
